When Rock doesn't come back to help like he promised, GT and Mags help Dash finish his car in time for the race. During the race, Rock takes the tips Dash gave him and uses them against GT and Mags to run them off the road so he can win. Willa, whose first feature on her animals is quite boring, gets the bright idea to exaggerate the abilities of her animals in order to create exciting entertainment. She sets up shots and tells little lies about what the animals are doing. After a while, the animals rebel and refuse to continue the false reporting. When people, including Willa's teacher, come from all over to see the fantastic animals the pressure is on Willa to admit the truth. At her next show, Willa tells everyone she's done her last report. She is sorry others don't find the animals as interesting as she does, but she'd rather tell the truth.

They begin performing tricks and doing all sorts of special things so they can be included in her most memorable moments. But when they go over the top and ruin Dad's rest in the hammock, Willa confronts them about their behavior. They explain they just wanted to be in the journal; Willa tells them that they don't have to do anything special to be in the journal. Sure enough, Nancy, the millipede, comes into the scene with several pairs of boots on her feet. She wanted to dance at the big "boot scoot" event taking place in the park that night. Because Saphira wouldn't give her time off, she "borrowed" the boots without permission and apologizes. Gobsmack sets up a punishment, which is to be his date for the "boot scoot."

The flowers start arguing with Pearlle, and then start fighting each other. In desperation, Pearlle goes back to Aunt Garnet who scolds her for not following directions and mentions that everything needs a soaking. Pearlle is forced to think about what Aunt Garnet means and figures that

the flowers need some rain to calm them down. With Jasper and Opal's help, she sprays water all over the garden. The flowers immediately pose beautifully for the photographers and Pearlie's garden is selected for a cover story.

WILLA'S WILD LIFE

HIDDEN TREASURE [WIL008]

Willa watches her dad bring in a beautifully wrapped present. She is dying with anticipation and, despite Jenny's protest, goes in search of the gift. Willa ventures into forbidden territory, Dad's office, and finds the present. She cannot contain herself and opens it. It's a broominator, an automatic vacuum cleaner that soon is completely out of control, destroying the house. Dad is furious that Willa almost ruined his special surprise for Grandma Birdie. Willa admits that she should not have gone snooping and agrees to check with Dad before opening things that don't belong to her. She eagerly starts cleaning up the mess she created.

UP, UP AND AWAY [WIL008]

There is a kite-building contest that Willa and Dooley want to win by building a kite all by themselves. They are very proud of their finished product until they see Lara, Cara and Sarah's enormous kite. Willa convinces Dooley that they should start all over and make a bigger kite. However, the bigger the kite, the more difficult it is to fly. In the end, they stick with their first kite, reasoning that it is not the biggest or the fanciest, but it is the one they like the best. Their kite flies the highest and wins the contest.

Jasper, instead of practicing, becomes overly concerned with his expected fame and begins to display signs of a big ego. In the meantime, Pearlle and Opal complete mountains of paperwork for a concert permit (a ruse created by Gobsmack who wasn't invited to perform). Despite their extraordinary efforts, Jasper's vain ways have caused problems with the band. He won't practice and is causing problems that threaten the concert, rendering Pearlle and Opal's hard work useless. When the Crickets' regular drummer returns, Jasper is out of a job and his high status position. But the show goes on without a hitch—a success for Pearlle, Opal, and the band.

Pearlie is looking after Great Aunt Garnet's store for the day. Always the opportunist, Saphira tries to get her hands on her own supply of Fairy Dust. She purposefully knocks over the only container in the store and tells Pearlie that she should find the recipe to make a new batch before Great Aunt Garnet finds out. Pearlie finds a recipe and takes Opal with her into the rain forest to collect ingredients. Something does not seem right with their recipe and now there is a giant wind swirl loose in the park. During the commotion, Saphira takes the ingredients and the recipe and makes another wind swirl. When things get out of control, Pearlie calls Aunt Garnet and she explains that Fairy Dust comes from the Mystic Mountains. Pearlie had a recipe for Fairy Gust, not Fairy Dust.

RUFFING IT [TDO118]

Several racing officials come down with the barking flu causing the weekend's race to be cancelled. The Turbo Dogs decide to go camping instead, enlisting Clutch's help to lead them on the adventure. Instead of telling them he isn't really an expert, Clutch decides to just go with it. When they arrive at Terrier Lake, Clutch pretends he's a camping expert and uses notes he has written on his hat to guide the Turbo Dogs. On the nature hike, Clutch seems to know even less than the others and leads them to more trouble than anything. Back at the campsite, when everyone thinks they hear a bear, they run to safety. Strut gets stuck in the tree he was hiding in and Clutch's quick thinking brings him to safety. Clutch admits he has never been camping and realizes he doesn't have to be an expert to be special.

Strut sneaks back into the station anyway and presses the button, wreaking havoc on everyone's GPS system. All the GPS systems start to do crazy things and the official has no choice but to cancel the race. The Turbo Dogs decide to go help Wrenchini fix the problem so they can save the race. When they arrive, Strut admits that he was the one that pushed the big, red button. Wrenchini fixes the GPS system and everyone returns to the track to clean all the mess so the race can begin again.

Pearlie believes Opal is innocent even though Saphira convinces Gobsnack that Opal is the prime suspect. Jasper, Opal and Pearlie set a trap to find the thief and prove Opal's innocence. Sure enough, Nancy, the millipede, comes into the scene with several pairs of boots on her feet. She wanted to dance at the big "boot scoot" event taking place in the park that night. Because Saphira wouldn't give her time off, she "borrowed" the boots without permission and apologizes. Gobsnack sets up a punishment, which is to be his date for the "boot scoot."

The flowers start arguing with Pearlie, and then start fighting each other. In desperation, Pearlie goes back to Aunt Garnet who scolds her for not following directions and mentions that everything needs a soaking. Pearlie is forced to think about what Aunt Garnet means and figures that the flowers need some rain to calm them down. With Jasper and Opal's help, she sprays water all over the garden. 1. The programming must have a significant purpose. Education need not be the only one. That purpose must serve the needs of children ages 16 and under.
2. Commercial broadcasters must provide the educational and informational objective of core programming in writing. The report will indicate a specific target age group for core programs.
3. Core programming is scheduled from Monday - Wednesday from 11:00 AM – 12:00 PM EST.
4. The program must be regularly scheduled so that it can be published in program guides consistently.
5. The program must be of a substantial length – 30 minutes or more.
6. Quarterly reporting of the schedule and hours of E/I programming to the FCC is required.
7. If E/I programming is preempted, written notice is necessary to identify where and why the E/I programming was preempted.
8. The program must be identified as specially designed to educate and inform children by the display on the television screen throughout the program of the E/I symbol.

Dear Mr. Allen,

Pets.TV is a television program that provides educational and informational segments exposing the target audience of young viewers to everything Pets. The upbeat contemporary presentation relates the animals to the viewer's lives and interests. Pets from everyday to the unique are showcased with educational information that shares how they evolved to become pets and their geographic origins. Professionals answer questions from pet lovers and share personal experiences. In these segments the excitement and love of working with pets is expressed. The motivational and inspirational message of each guest is entertaining and empowers audiences of all ages to pursue more information and education about everything pets.

Each segment of Pets.TV delivers an educational and informational message that supports current social, intellectual and emotional aspects of children ages 13 and up. Attributes and advice emphasized by guests instill a grounded balance of priorities, commitment, and perseverance children can apply to their lives.

Based on my extensive experience as an educator and principal in public education, it is my sincere opinion that the series Pets.TV complies with the FCC Children's Television Rules by furthering the educational and informational needs of children 13 years of age and up.

Sincerely,

Dear Alex,

Upon review of several programs, it is my opinion that "Animal Rescue" is an educational and instructional television series for children 16 years of age and younger. As a teacher, lecturer and Doctor of Veterinary Medicine, I feel "Animal Rescue" is specifically designed to educate and inform children about various types of animals and their care, as well as showcasing professional and non-professional people exhibiting selfless dedication assisting animals in need. The programs not only educate youngsters about a wide and diverse range of the world's animals, their habitats and how they live, but they also offer instruction on medical and rehabilitation techniques and address the social aspects and emotional concerns of being a responsible citizen.

As an Adjunct Professor at Western University School of Veterinary Medicine, a lecturer at UCLA Extension and a practicing veterinarian, I would recommend "Animal Rescue" to parents, educators and broadcasters as an excellent example of informational programming serving young viewers.

Sincerely,

Dear Alex:

I believe the program exerts a extremely positive influence on young viewers; the stories are wonderful illustrations of the best of human instincts. Its particular strengths are its themes of respect and compassion for all living creatures, its informative instruction on medical rehabilitation treatments and the techniques and teamwork of rescue personnel. It provides valuable information to young viewers about the animals themselves, their habitats, development and behavior, and also promotes awareness of important environmental issues.

"Animal Rescue" strongly promotes the kind of pro-social values that are of inestimable importance in shaping the growth and character of young people. It is a sorely needed antidote to so much of television programming that presents a negative view of society and human behavior. The program is an excellent vehicle for informing and educating children and would be a valuable addition to any broadcaster's lineup. The public interest is well served by this series.

Sincerely yours,

Paul Rosenthal
